PHOTOBOOKS. Art Page by Page

Special exhibition 25.11.2021 – 3.4.2022

The definition of the photobook is as broad as that of photography, and ranges from handmade unique objects to smaller and larger print runs, from self-publishing and zines to rare, elaborately designed and bound editions. The exhibition shows a selection of 45 German and international photobooks from the last decades, with a focus on exceptional concepts, design and presentations. The interaction between photography, material, binding, form, and format offers many possibilities for experimentation and demonstrates the potential of the photobook as an artistic medium unto itself.

With photobooks by:
